

## KTS 158 TEST SYSTEM

JcAIR P/N 01-0864-00

The KTS 158 Test Set is a digital interface for King Radio products. The test set is designed to fit into a suitcase type enclosure. The KTS 158 can be used with the KC 190/191/192, the KS 177/178/179, and the KA 185. The front panel of the KTS 158 contains an array of rotary and toggle switches that allow the technician to tailor the test set to the unit under test. The data bus status is shown by front panel LED indicators. The KTS 158 test set includes an aircraft cable, a computer cable, a servo cable kit gyro stand KRG 331 rate gyro extender and a KA 185 cable.
