PRESS RELEASE—MALABAR JACKS, CARTS, AND DISPENSERS

Simi Valley, CA, April 28, 2016 — Malabar International announced today that it has signed an agreement with Aero Express, Lee's Summit, MO, to be its exclusive US representative for distributing business-jet maintenance equipment. **Aero Express will be providing Malabar jacks and other maintenance equipment for Gulfstream, Bombardier Global Express and Challenger series, Embraer Legacy and Dassault Falcon business jet aircraft.**

John E. Carroll, Jr., Malabar Chairman and CEO, said, "With our reputation as a supplier of top quality jacks and other maintenance equipment to the commercial, military and business jet markets, adding Aero Express with its experience and capabilities will help us expand in the business jet market within the United States."

"The Malabar line of jacks, carts and other aircraft maintenance products is an excellent addition to broaden our portfolio of products and services for our business jet customers nationwide," said Jeanne Rau-Flattery, President and CEO of Aero Express.

Aero Express provides both new and pre-owned instrument and avionic aviation test equipment both for ramp/flight-line and bench/shop environments, especially for the business jet market. Aero Express has been in business over 20 years, is authorized by numerous test equipment manufacturers for sales, service, calibration and repair and now will be distributing Malabar business jet maintenance equipment.

Malabar International is a pioneering supplier of maintenance and ground support equipment for commercial, military, and business jet aircraft. Malabar's major product lines are tripod and axle jacks, fluid dispensers, A350 and B787 coolant service equipment, nitrogen, oxygen and strut service carts, specialized service trailers, wheel/brake changers, and repair and refurbishment of its products. Malabar has a worldwide reputation for quality and service, with 24-hour online product support, including emergency parts supply.
